

DOFAK - DOFAK 1180-1200 mm - 2008

	Manufacturer: DOFAK
	Type: DOFAK 1180-1200 mm
	Year of manufacturing: 2008
	Parameters: Rollforming machine for metallic tiles

Description:

DOFAK - DOFAK 1180-1200 mm - 2008

- Rollforming machine for metallic tiles
- Producer: DOFAK SP. J.
- Mechanical decoiler: ~7000 kg
- Coil trolley: ~7000 kg
- Disk cutter
- Entry + foiler
- Roll former 7800 mm
- Hydraulic press
- Hydraulic guillotine
- Run-out table 7800 mm
- Transporter 6000 mm

Overall dimensions:

- Length (without decoiler): 18000 mm
- Width: 2500 mm
- Height: 2000 mm

Electrical terminal:

- Supply voltage: 3 x 400 V
- Control voltage: 24 V
- Frequency: 50 Hz
- Working pressure of the hydraulic system: 10 Mpa
- Total installed Power: 17 kW

Control pannel: Beijer HT60

Occupied surface: 22000 x 2500 mm

Parameters of profiled sheet:

- thickness of profiled sheet: 0.40 - 0.45 - 0.50 mm
- width of sheet coil: 1230 / 1250 mm
- total width of roof tile: 1180 / 1200 mm
- net width of roof tile: 1100 mm
- length of roof tile: 300 - 350 - 400 mm
- height of stamping: 15 mm

Spare parts

- guillotine
- hydraulic cylinder for press
