GOODWAY - GS-4300

Manufacturer: **GOODWAY**

Type: **GS-4300**

Description:

GS-4000
Packed with the latest machine tool technologies and powerful cutting capabilities, the GOODWAY GS-4000 series CNC turning centers are built on a foundation of four bed lengths and two spindle sizes. Featuring a high-rigidity box-way structure, a high-torque two-speed gearbox, and a large-diameter turret, this series is engineered for heavy-duty cutting and a wide machining range.

With optional live tooling, sub-spindle, and Y-axis configurations, the GS-4000 series are able to complete turning, milling, drilling and tapping of both ends of a workpiece in one single machine. This versatility makes it the ideal solution to meet your complex machining needs, today and into the future.
