GOODWAY - GVF-1215

Manufacturer: **GOODWAY**

Type: **GVF-1215**

Description:

GVF
Packed with the latest machine tool technology and high-quality components, the GOODWAY GVF series vertical CNC lathes feature a high-rigidity fixed-beam structure and a high-torque, gear-type workpiece spindle, delivering ultra-heavy cutting capability that outperforms machines in its class. They fully satisfy the machining requirements of large workpieces in industries such as aerospace and energy. In addition, optional live tooling spindles, Cf-axis, and various attachment heads give this series multi-tasking capability for turning, milling, and drilling on both end surface and cylindrical surfaces—easily meeting your cutting needs today and in the future.
